Adjustment of free allocation for aircraft operators according to Regulation (EU) No 421/2014 amending Directive 2003/87/EC

With the Regulation 421/2014, a new Article 28a Directive 2003/87/EG was inserted which foresees in paragraph 2 a reduction of the free allocation to aircraft operators for the years 2013 to 2016. Accordingly, the issuance of free allowances to aircraft operators who performed exempted flights to third countries (in 2010) will be reduced in proportion to the reduction of the surrender obligation. Pursuant to Article 28a paragraph 2 second sentence, the German Emissions Trading Authority is obliged to publish the number of free aviation allowances allocated to each aircraft operator for the years 2013 to 2016.

The following table shows the preliminary calculation of the reduced free allocation to aircraft operators in the years 2013 to 2016. The final calculation will be provided with the announcement of the adjusted allocation decision until 31. December 2014.

ETS-ID	Aircraft Operator	Annual allocation of free allowances	Coverage percentage for reduced scope	Reduced annual allocation of free allowances to be issued for 2013 to 2016
34963	ACG AIR CARGO	232.425	0,25%	571
