## EXPLANATORY STATEMENT

This proposal introduces a system for monitoring, reporting and verification of carbon dioxide emissions from maritime transport.

The Parliament adopted its first reading position on 16 April 2014. On 24 September 2014 the ENVI Committee took the decision according to Rule 74 of the Rules of Procedure to open inter-institutional negotiations. The Parliament's and Council's negotiating teams, with the participation of the Commission, reached an informal agreement on the file on 18 November 2014. The text of the agreement was presented to the ENVI Committee for a vote of approval on 3 December 2014, and was approved by an overwhelming majority. Following legal-linguistic verification, Council adopted its first reading position confirming the agreement on 5 March 2015.

As Council's first reading position is in conformity with the agreement reached in the trilogues, your Rapporteur recommends to the Committee to accept it without further amendments.
